Date : 28 th May 2024

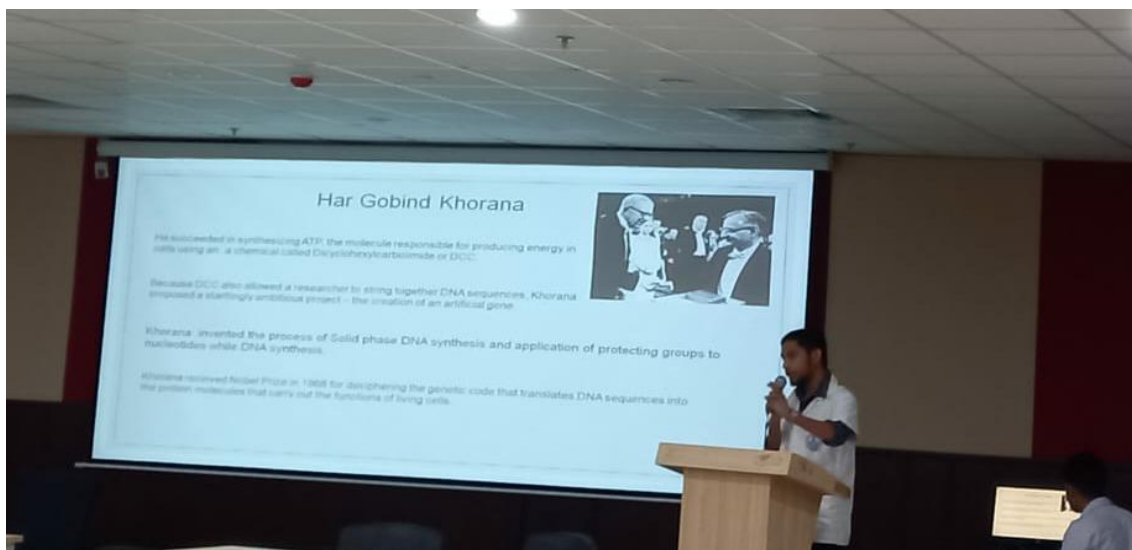

Report :- Seminar in The Department of Biochemistry on the topic of "Discovery of Genetic Code, its Characteristics, Genetic Mutation and Their Repair Mechanism .

Today one seminar was arranged involving the 1st year MBBS students. Six students provided their views on the topic of Discovery of Genetic Code, its characteristics, Genetic mutation and their repair mechanisms. All students spoke very well and the attendance was also good. Although it was the first seminar by the 1st year students, they seemed quite professional and competent in preparing their slides and presentation. The overall experience was very encouraging.

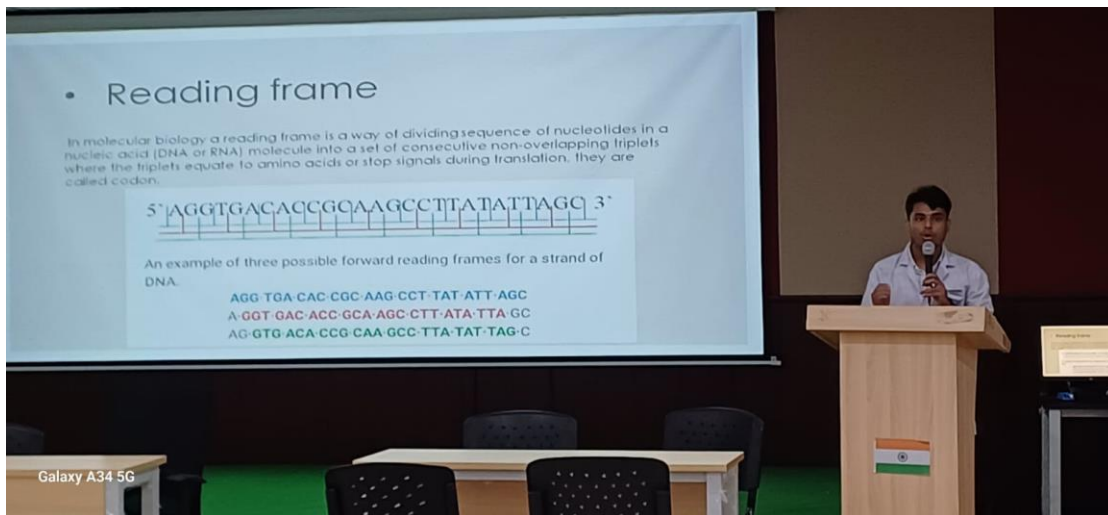

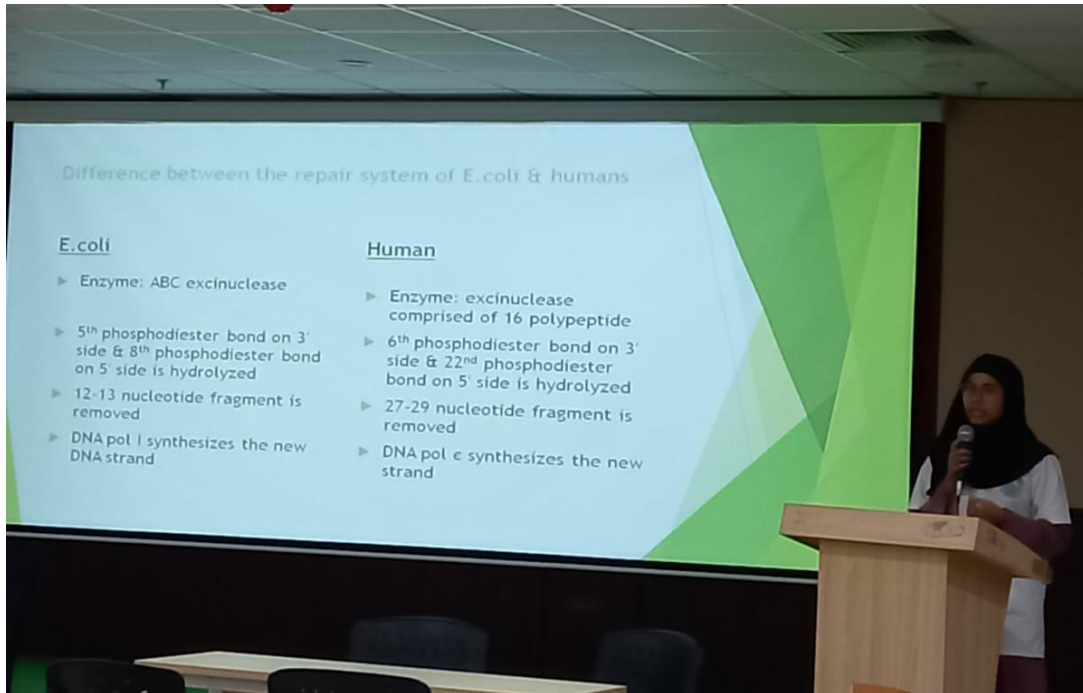

Name of the students who have participated, are:

1. Asif Ahmed
2. Rima Dhal
3. Moudipa Das
4. Tabassum Khatoon
5. Sk. Tahfim
6. Simran Khan

Some glimpses are posted here.
