Report on Field Visit of 2nd Year MBBS Students of Jhargram Government Medical College & Hospital , Batch 2022 (5th Semester) in the 100 Adopted Families of Village Lalgarh under Family Adoption Programme

The 2nd year MBBS students of Jhargram Government Medical College & Hospital has completed their 2nd field visit in 100 adopted families of village Lalgarh. They visited door to door, guided by the Public Health Nurse of Jhargram Govt. Medical College and local ASHA workers of Lalgarh. The students communicated with the members of the 100 adopted families. During the communication process, the students learned the layout of the communities, socioeconomic conditions of the local peoples, the available health and education facilities, demographic trends, and also different aspects of the individual adopted families, like type of families, age, sex, education, occupation of family members, housing and environment conditions, and dietary practices. The good peoples of village Lalgar helped the students enthusiastically in their learning process, and also requested the students for basic check ups like blood pressure measurement which the students did. They also assured the villagers that they will visit again, and a health camp will be arranged in the premises of PHC Lalgarh from Jhargram Government Medical College & Hospital, all adopted families along with all the local people of village Lalgarh are welcome for a health check up free of charge, under Family Adoption Programme. With cordial thanks to the good peoples of village Lalgarh, and the ASHA workers who acted as the local guide, the visit ended successfully.
